First Quarter Overview and Financial Review

Business Highlights – 1Q23

1Q23 results were highlighted by continued progress on our BPC strategy, significant gross margin improvement and a strong financial position

- Revenue pressured by de-stocking
- Progress on BPC strategy positioning company for growth
- Meaningful gross margin improvement
- Strong financial position

Revenue

First quarter revenue declined 38% driven by continued inventory de-stocking

Operating Income

Operating income was impacted by ongoing investments in our BPC organic growth initiatives

Organic Growth Initiatives

We were awarded several new shower programs, received a refresh of an in-store sanitaryware program with a large Canadian retailer, and continued to add new dealers for our custom kitchen cabinetry business

Strong Financial Position

We ended the quarter with only $1 million of net debt[(1)] and total liquidity of $23 million

Gross Margin

First quarter gross margin was 26.5%, up 925 basis points from the prior year

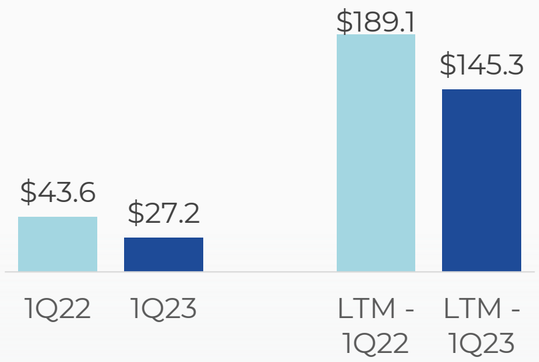
Favorable Market Trends

Demand trends across most of our key product categories remained relatively stable despite the macro headwinds

(1) See attached appendix for reconciliation of GAAP and non-GAAP financial measures

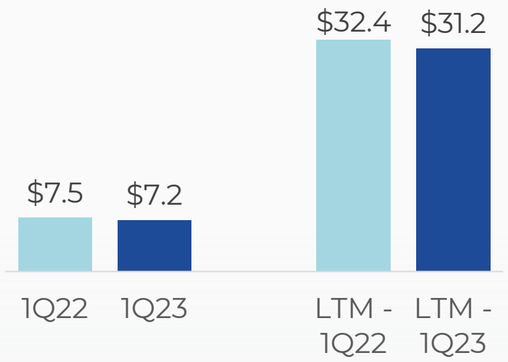
Quarterly Consolidated Financial Results

Total Revenue $MM



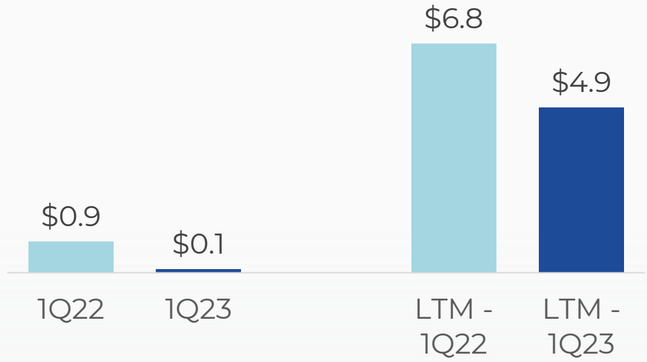
Total first quarter revenue decreased 37.7% driven by inventory de-stocking across each of our business lines.

Gross Profit $MM



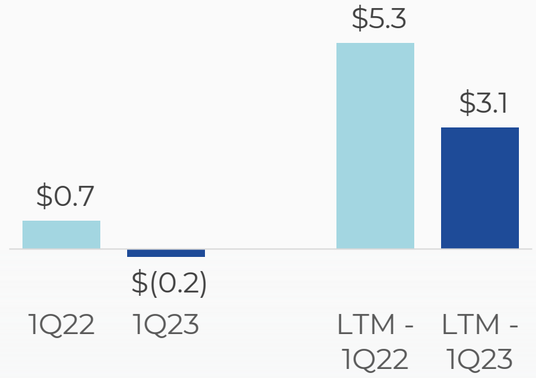
Gross profit was down only 4.3% compared to last year, as the volume headwinds were offset by a shift in the revenue mix towards the higher-margin shower systems and custom kitchen cabinetry businesses. As a result, gross margin was 26.5% during 1Q23, up from 17.3% in the prior-year period.

Adjusted Operating Income [1] $MM



Adjusted operating income was $0.1 million, down from $0.9 million, due to lower gross profit and an increase in operating expenses tied to growth initiatives. Adjusted operating margin was 0.4% during 1Q23, down from 2.1% last year.

Adjusted Net Income [1] $MM



Adjusted net loss for the first quarter of 2023 was ($0.2) million, versus adjusted net income of $0.7 million for the same period last year.

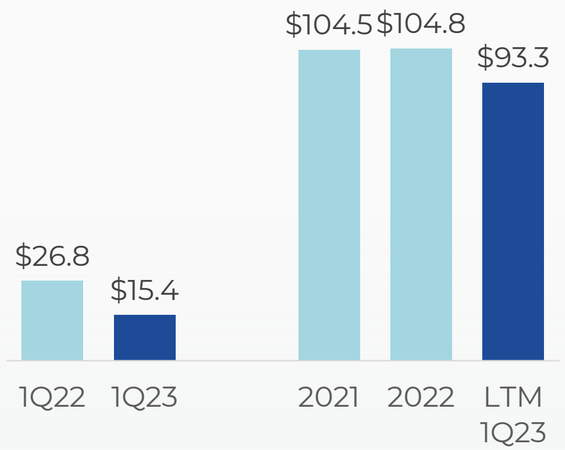
(1) See attached appendix for reconciliation of GAAP and non-GAAP financial measures

FGI

Quarterly Business Line Results

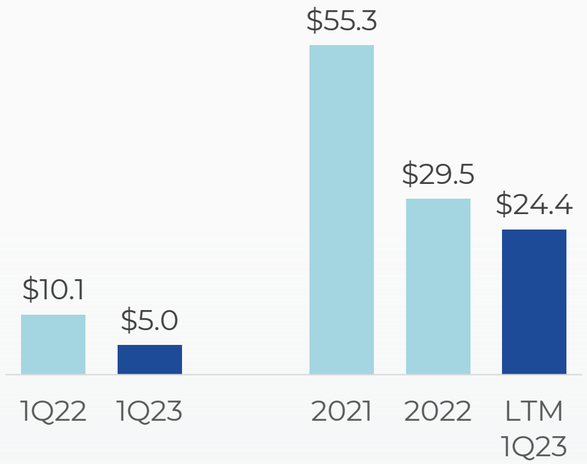
Revenue by product category

Sanitaryware ($MM)



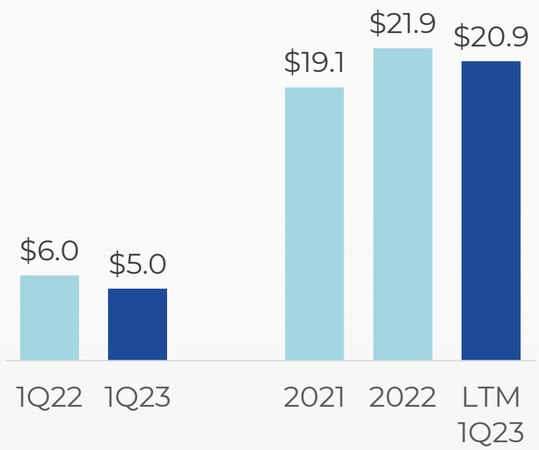
Sanitaryware revenue decreased to $15.4 million, down from $26.8 million last year, driven by inventory de-stocking primarily in the pro channel. Despite the macro headwinds, end customer demand was relatively stable.

Bath Furniture ($MM)



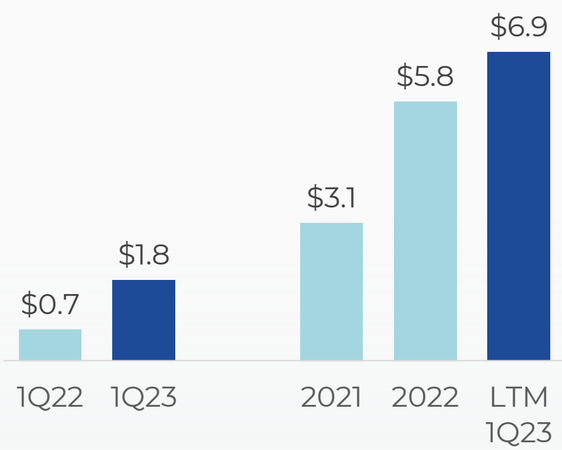
Bath Furniture revenue was $5.0 million, down from $10.1 million last year, as key customers continue to reduce channel inventory levels as well as some modest softening in the overall demand environment.

Shower Systems ($MM)



Shower Systems revenue was $5.0 million during 1Q23, down from $6.0 million last year. The decline in shower systems revenue is expected to be temporary, as momentum in the business remains strong, highlighted by several awards with national retailer partners that will begin to roll-out in 2H23.

Other ($MM)



Other revenue was $1.8 million during 1Q23, up from $0.7 million last year driven by continued expansion of our kitchen cabinetry business.

Balance Sheet & Liquidity Update

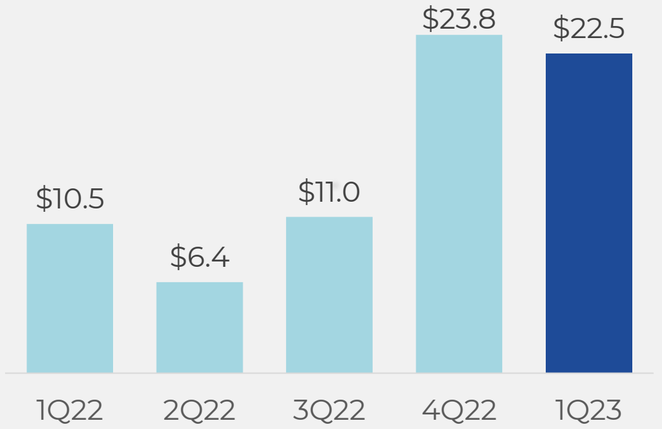
Significant working capital improvements have strengthened the balance sheet and liquidity

- Cash and availability was $22.5 million at 1Q23 owing to strong free cash flow conversion and increased availability under our facilities

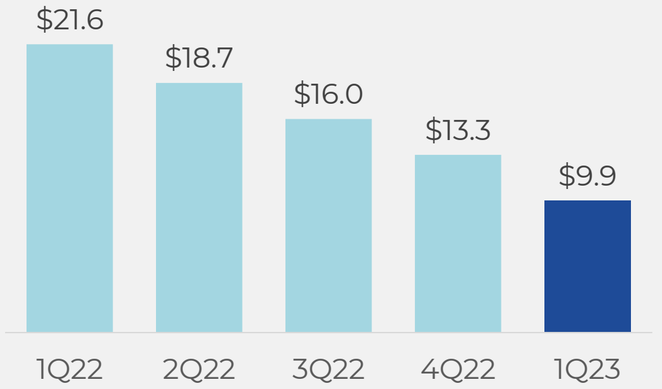
- Inventory has declined by over $10 million from the end of 2021 as supply chain issues have normalized

- We improved to a net debt position of $1.0 million at 1Q23 down from a peak level of $11.6 million during 2022

Cash & Availability ($MM)



Inventory ($MM)



Net Debt (1) ($MM)

Financial Outlook

2023 FINANCIAL OUTLOOK

Revenue	Adjusted Operating Income	Adjusted Net Income
$145 – 163 million	$6.0 – 6.8 million	$4.2 – 4.7 million

2023 guidance includes roughly $0.5 million of costs related to investments in a new kitchen program. Guidance for adjusted operating income and adjusted net income is presented on an adjusted basis and excludes non-recurring items. All guidance is current as of the time provided and is subject to change.

Investment Conclusion

Ample liquidity to support ongoing growth of business

TRUSTED GLOBAL SUPPLIER

We are global, diversified, and reputable supplier of quality kitchen & bath products (Innovation, Quality, Service). With decades of continuous innovation and strategic investment, we have become a trusted partner for many of the world's largest retailers and wholesalers.

STRONG ORGANIC GROWH

We pursue a "BPC" strategy: focus on Brands, Products and sales Channel. Our BPC plan is the key driver of our growth strategy.

ATTRACTIVE MARGIN OPPORTUNITY

As a carve-out division from a parent company, we will leverage our independence and our prior investments to generate improved financial performance.

STRONG SHAREHOLDER ALIGNMENT

High insider holding by our original parent holding company, will ensure a strong alignment of interests with our public shareholders.

VALUE-ACCRETIVE BOLT-ONS

We may engage in selective "bolt-ons" and large, strategic M&A, should such opportunities clear our return-on-capital hurdles.
